8 weeks	<p><u>What is revealing about Henry VIII’s divorce from Catherine of Aragon? - (Henry VIII’s break with Rome)</u></p> <p>The focus is on the historical significance of Henry VIII’s Break with Rome. The topic itself has such ramifications, both politically and religiously, students will be directed to assess its significance. This unit mainly focuses on the concept of significance. Extensive research on this concept has generally found that students tend to struggle to understand how and why significance is ascribed to historical topics. Counsell has sought to resolve this problem by devising a criteria to judge historical significance. Counsell has stated that to judge whether or not an event is historically significant, it must be “remarkable, remembered, resonant, resulting in change and/or revealing”. Christine Counsell’s criteria for historical significance will be used in order to support the learning hence why the question uses the word ‘revealing’. Pupils will tackle this question in order to fully assess the significance of the Break with Rome.</p> <p>Initially pupils will be introduced to Henry VIII and judge whether he was a good or a bad king. They will then explore Henry’s problems and solutions during his reign by focusing on Henry’s six wives and understanding the closing down of monasteries. Finally, pupils will make links between Henry’s desire for divorce from Catherine of Aragon and the Break with Rome by answering this enquiry question: What is revealing about Henry VIII’s divorce from Catherine of Aragon?</p>	Pupils have background knowledge on life in Tudor England and the focus now is on the monarchy, domestic and foreign affairs.
