

Number of weeks (between 6&8)	Content of the unit	Assumed prior learning (tested at the beginning of the unit)																																																																																																																																																																																																																																																																																																																																																																																																																																																																		
13	Covers the EDEXCEL GCSE ICT theory element of the course which covers topics in the following:- <ul style="list-style-type: none"> • Personal Digital Devices • Connectivity • Operating Online • Online Goods and Services • Online Communities • Issues 	The theory within this unit assumes that most pupils will have some knowledge in answering basic exam style questions.																																																																																																																																																																																																																																																																																																																																																																																																																																																																		
Assessment points and tasks	Written feedback points	Learning Outcomes (tested at the end and related to subject competences)																																																																																																																																																																																																																																																																																																																																																																																																																																																																		
<p>Pupils will be assessed on their theory during the November Mock Exam as well as practice exam questions during the lesson.</p> <p>This Schemes of work is aimed towards GCSE Grades A*-B</p>	<p>Feedback on exam questions completed in lesson. Marking the march mock exam paper.</p>	<table border="1"> <thead> <tr> <th></th> <th>1</th> <th>2</th> <th>3</th> <th>4</th> <th>5</th> <th>6</th> <th>7</th> <th>8</th> <th>9</th> </tr> </thead> I can compile still images into a product																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can compile movie clips into a product																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can record a variety of shots																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can film skilfully, with sensible panning and zooming choices																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can use information relevant to the scenario																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can demonstrate a highly creativity, imaginative & complete product																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can describe a range of sophisticated tools and techniques																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can import components into a timeline																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can export a movie in an appropriate format																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can explain the files types I would use for different movies																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can split and trim movie clips																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can place audio into a timeline																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can use transitions or effects																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can adjust audio levels appropriately in a product																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can use a range of editing techniques																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can edit audio appropriately to the timeline																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can judge the success of mine and other's work.																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can judge the success of mine and other's work against the requirements of the user.																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can follow a system life cycle for project development																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can make an attempt to save work on the home drive																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can create an electronic folder system with sensible file names																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can save some files with appropriate file types																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can save some files logically in the correct folder																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can save most files with appropriate names, and as the appropriate file type																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can record some resources in a table																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can make a basic attempt at planning																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can use an appropriate design template																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can produce a basic plan																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can produce a basic plan with some details																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can produce a plan identifying colour, layout and physical size																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can create an extensive, original and detailed plan with some minor lack of detail																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can create an extensive, original and detailed plan																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can correct obvious spelling errors																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can create a product that resembles the planning																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can check that spelling and grammar are correct																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can make an attempt to record resources																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can record and distinguish differences between primary and secondary sources																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can enter basic search criteria into a search engine to find appropriate information																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can record all secondary and primary resources accurately																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can accurately record copyright information																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can accurately record detailed copyright information																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can test a product before it is finished- 'trying it out'																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can test final products																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
I can create a detailed testing plan with explanations																																																																																																																																																																																																																																																																																																																																																																																																																																																																				

		1	2	3	4	5	6	7	8	9
	I can recall the term copyright									
	I can describe what copyright means									
	I can identify the term legislation									
	I can discuss copyright law									
	I can identify why organisations must protect data									
	I can describe how legislation affects computer use									
	I can explain what the Data Protection Act is									
	I can explain what the Computer Misuse Act is									
	I can recall the term cyber bullying									
	I can describe the term cyber bullying									
	I can explain forms of cyber bullying									
	I can identify personal risks to myself when using technology (e-safety)									
	I can discuss cyber bullying prevention and protection									
	I can explain how moral and ethical issues affect computer use									
	I can recall the term data loss									
	I can explain what data loss means									
	I can recall the term 'hacking'									
	I can define the terms Virus/Worm									
	I can identify a range of threats to data security									
	I can describe how organisations can protect data									
	I can describe a range of threats to data security									
	I can explain how to deal with threats to data security									
	I can draw conclusions on how the loss/theft of data affects organisations									
	I can describe actions which can be taken to minimise risk presented by data security									
	I can explain the impact that ICT can have on the different groups in society.									
	I can explain the environmental impacts of ICT.									

At the end of this Unit all pupils should be able to:

- Answer exam style questions which are graded G, F & E.

Most pupils will be able to:

- Answer exam style questions which are graded D, C & B

Some pupils will be able to:

- Answer exam style questions which are graded A & A*

Lesson	Clear learning intentions	Clear success criteria	Hook	Presentation of content	Guided practice	Independent practice (homework)	Closure
--------	---------------------------	------------------------	------	-------------------------	-----------------	---------------------------------	---------

1	<ul style="list-style-type: none"> • What are personal digital devices? • How are the devices used in everyday situations? 	Understand what personal digital devices are and how they are used in everyday situations?	Exam question	Go through the workbook on personal digital devices. Page 1-10. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 1-10. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 1 from PAPER 1 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.
2	<ul style="list-style-type: none"> • What are personal digital devices? • How are the devices used in everyday situations? 	Understand what personal digital devices are and how they are used in everyday situations?	Go through the answers from question 2-19 in the revision guide.	Go through the workbook on personal digital devices. Page 11-19. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 11-19. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 2 from PAPER 1 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.
3	<ul style="list-style-type: none"> • What is connectivity? • How is it used in our everyday lives? 	Understand what is connectivity and how it is used in our everyday lives?	Go through the answers from Question Paper 1 from the practice papers book.	Go through the workbook on connectivity. Page 20-24. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 20-24. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 3 from PAPER 1 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.
4	<ul style="list-style-type: none"> • What is connectivity? • How is it used in our everyday lives? 	Understand what is connectivity and how it is used in our everyday lives?	Go through the answers from question 20-24 in the revision guide.	Go through the workbook on connectivity. Page 25-29. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 25-29. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 4 from PAPER 1 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.

5	<ul style="list-style-type: none"> How do we operate online? 	Understand how we operate online and the various ways in which we can do this.	Go through the answers from Question Paper 2 from the practice papers book.	Go through the workbook on operating online. Page 30-33. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 30-33. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 5 from PAPER 1 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.
6	<ul style="list-style-type: none"> How do we operate online? 	Understand how we operate online and the various ways in which we can do this.	Go through the answers from question 30-33 in the revision guide.	Go through the workbook on connectivity. Page 34-38. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to revise for their mock exam while going through theory work and answering exam questions. Pupils to use the 'REVISION WORKBOOK' to complete page 34-38. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 1 from PAPER 2 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.
7	<ul style="list-style-type: none"> How do we operate goods and services online? 	Understand how we operate goods and services online and the various ways in which we can do this.	Go through the answers from Question Paper 3 from the practice papers book.	Go through the workbook on online goods and services. Page 39-43. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 39-43. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 2 from PAPER 2 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.

8	<ul style="list-style-type: none"> How do we operate goods and services online? 	Understand how we operate goods and services online and the various ways in which we can do this.	Go through the answers from question 39-43 in the revision guide.	Go through the workbook on online goods and services. Page 44-48. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 44-48. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 3 from PAPER 2 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.
9	<ul style="list-style-type: none"> How do we operate goods and services online? 	Understand how we operate goods and services online and the various ways in which we can do this.	Go through the answers from Question Paper 4 from the practice papers book.	Go through the workbook on online goods and services. Page 49-55. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 49-55. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 4 from PAPER 2 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.
10	<ul style="list-style-type: none"> What are online communities? How do they operate? 	Understand what online communities are and how they operate.	Go through the answers from Question Paper 5 from the practice papers book.	Go through the workbook on online communities. Page 56-60. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 56-60. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 5 from PAPER 2 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.
11	<ul style="list-style-type: none"> What are online communities? How do they operate? 	Understand what online communities are and how they operate.	Go through the answers from question 56-60 in the revision guide.	Go through the workbook on online communities. Page 61-64. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 61-64. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 1 from PAPER 3 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.

12	<ul style="list-style-type: none"> What are the different issues with regards to ICT? 	Understand what the different issues are with regards to ICT.	Go through the answers from Question Paper 6 from the practice papers book.	Go through the workbook on issues. Page 65-68. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 65-68. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 2 from PAPER 3 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.
13	<ul style="list-style-type: none"> What are the different issues with regards to ICT? 	Understand what the different issues are with regards to ICT.	Go through the answers from question 69-73 in the revision guide.	Go through the workbook on issues. Page 69-73. Explain to the class about creating a presentation of chosen topics within the book to which they need to present to the rest of the class.	Pupils to use the 'REVISION WORKBOOK' to complete page 69-73. Pupils to use the revision guide book as a guidance to create the PowerPoint and then present to the class. Pupils look through each presentation and complete the topic within the revision workbook.	COMPLETE QUESTION 3 from PAPER 3 FROM THE 'PRACTICE PAPERS BOOK'.	Re-cap on what has been learned within the lesson. Go through some of the answers.
