The new reformed GCSEs – that’s the ones using grades 9 to 1 - have now been running for two years. Now we understand better what pupils are expected to do to get particular grades we have made some changes to the way we decide the GCSE grade that, at the moment, we think your child is working at.

This may mean your child’s grades have gone up or down (or sometimes a mix of the two) but we are confident that the ones on this report card are more accurate.

If you have any questions about the grades on your child’s card please send us email either through the Contact Us page on the school website or to stratford@stratfordschoolacademy.org. Please put in the subject line your Child’s name, year and the words report card question. We will then pass it on to the right teacher who will get back to you.
